RESOLUTION NO. SD10-03

A RESOLUTION AMENDING RESOLUTION NO.SD08-04 ESTABLISHING THE SANITARY DISTRICT'S POLICY OF ALLOWING CREDIT FOR LAWN SPRINKLING TO SANITARY DISTRICT CUSTOMERS FROM MAY 1 THROUGH SEPTEMBER 30.

Whereas, on April 3, 2008 the Board of Sanitary Commissioners adopted Resolution SD08-04 establishing a policy providing that domestic users of sewage services not be assessed a sewer user charge for water used in the sprinkling of lawns from June 1 through August 31; and

Whereas, because of considerations dictated by the timing of water meter readings and billing for sewer user charges, many residential customers of the District were not receiving equitable treatment for the summer sprinkling credit.

Now therefore be it resolved by the Board of Sanitary Commissioners as follows:

1) The summer discount period is designated to be from May 1 through September 30. The non-discount water use period shall be October 1 through April 30.

2) Prior to billing domestic customers for treatment plant sewage service charges incurred during the discount period, the sanitary district shall calculate the domestic customer's average daily charge incurred during the preceding non-discount period. In the event the domestic user's average daily discount period charge exceeds the average daily non-discount period charge, the domestic customer shall be billed a user charge equivalent to the non-discount period average daily charge. In no event, however, shall a person receiving the summer discount receive a monthly sewer user charge of less than $5.10.

3) In the event the billed average water consumption for the preceding non-discount period is greater than the actual average water consumption during the discount period, then the billing for sewage service shall be based on the actual water usage during the discount period.

4) The foregoing discount shall not apply to any premises which are partially or wholly used for industrial or commercial purposes. In the event a portion of the premises shall be used for commercial or industrial purposes, the owner shall

have the privilege of separating the water service so that the domestic portion of the premises is served through a separate meter, and in that case, the water usage as registered by the water meter serving that portion of the premises used for domestic purposes would qualify for treatment under the discount rate.

PASSED AND ADOPTED ON THIS 1st DAY OF April, 2010. BY THE BOARD OF COMMISSIONERS OF EAST CHICAGO SANITARY DISTRICT, COUNTY OF LAKE, STATE OF INDIANA.
