This system provides >4-log removal of Cryptosporidium, Giardia, and bacteria, >1.5-log virus rejection and a silt density index of less than 2.0, regardless of changing feed water conditions. This membrane technology provides a physical barrier that effectively removes solids, viruses, bacteria, and other unwanted molecules. Different types of membranes are used for softening disinfection, organic removal, and desalination of water and wastewater and can be installed in compact, automated, modular units. The existing membrane units are Evoqua MEMCOR type membranes, and they currently have one (1) year remaining on the product and are limited by the existing proprietary MEMCOR design. principally benefit low- and moderate-income persons. The following guidelines for allocating CDBG and HOME funds were used by the City:

- The public services activities are for social service organizations whose clientele are low income or in some cases, a limited type of clientele with a presumed low and moderate-income status.
- The public facilities activities are either located in a low and moderate-income census tract/block group, have a low and moderate-income service area benefit, or the clientele is over 51% low and moderate income.
- The acquisition and demolition of structures are either located in low and moderate-income census tracts/block groups or these activities are eligible under the prevention or elimination of slum and blight on a spot basis or area wide basis.
- Acquisition and assemblage of sites for the construction and development of affordable housing will be for low and moderate-income persons.
- The housing activities have income eligibility criteria; therefore, the income requirement targets the funds to low and moderate-income households throughout the City.
- Economic development projects will either be located in a low and moderate-income census tract/block group with a poverty rate greater than 20%, part of a redevelopment plan, or will make 51% of the jobs available to low and moderate-income persons.

The activities proposed under the FY 2023 CDBG Program Year were located in areas with the greatest percentage of low- and moderate-income persons and those block groups with a percentage of minority persons above the average for the City of East Chicago.

The City of East Chicago did meet its goal of rehabilitating 16 housing units, the City exceeded this goal by rehabilitating 34 housing units.

During this CAPER period, the City of East Chicago assisted 29 first-time homebuyers without using CDBG and HOME funds.

Discuss how these outcomes will impact future annual action plans.

The City of East Chicago is continuing to work toward achieving its goals of providing decent, safe, sanitary, and affordable housing for its low and moderate income residents. The City is providing funds for sale and rental housing to make them affordable. In addition, the City is funding a housing rehabilitation program.

The City of East Chicago directly assisted the community with affordable housing by providing CDBG and HOME funds to rehabilitate single family homes through the Residential Repair Program, the Emergency Rehab Program, the Accessibility Program and the Exterior Renovation Program. The City also funded a homebuyer workshop. The Department of Redevelopment will continue to partner with housing agencies and housing service providers. As a part of the Annual Action Plan planning process, the City will continue its extensive consultation and outreach efforts.

Narrative Information

The City of East Chicago used its limited CDBG and HOME funds to address the greatest housing and community development needs in the City. The City worked in cooperation with non-profit housing developers to address the City's affordable housing needs through the use of CDBG and HOME funds.

The information for Table 13 concerning the number of households assisted by income was taken from the CDBG and HOME PR-23 Reports from IDIS.

In FY 2023, the City of East Chicago provided CDBG, HOME, and other funds to develop or rehabilitate housing in the City. The results of the activities funded during the FY 2023 CAPER period are below as required in HUD Table 2-A:

- **Acquisition of existing rental units - FY 2023** = 0 existing units; and Five Year Total = 0 existing units
- **Production of new rental units - FY 2023** = 0 new units; and Five Year Total = 0 new units
- **Rehabilitation of existing rental units - FY 2023** = 0 existing units; and Five Year Total = 12 existing units
- **Production of new owner units - FY 2023** = 0 new units; and Five Year Total = 0 new units

How has the City addressed the "Worst Case" Housing Needs?

The City of East Chicago did not provide any direct funding for “Worst-Case” housing, but the City continued its Housing Rehabilitation Program to help homeowners to make accessibility improvements to their homes. The Housing Rehabilitation Program includes the Residential Repair Program, the Emergency Rehab Program, the Accessibility Program and the Exterior Renovation Program. These programs utilize CDBG and HOME Funds to assist the LMI persons to remain in their homes. Redevelopment continued its Roofing Program that was developed during the 2019 CAPER period, which was funded with non-federal funds.

During this CAPER period, the City completed thirty-four (34) housing rehabilitations.

The East Chicago Housing Authority is working on a LIHTC project, which will be a newly constructed Senior Housing Complex. Over the next year, the ECHA will finish construction on Lake Shore Manor, a LIHTC property that will provide 206 units for the elderly and disabled. The construction of Lake Shore Manor will offset the demand for ECHA’s public housing units for the elderly and disabled.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through: Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The City of East Chicago's primary strategy in eliminating chronic homelessness is coordination with the Continuum of Care Network and implementation of programs designed to reduce and address homelessness in East Chicago and throughout Lake County, Indiana.

The City of East Chicago is part of the Indiana Balance of State Continuum of Care (CoC) in Region 1a, which consists solely of Lake County. The Balance of State CoC is managed by the Indiana Housing and Community Development Authority (IHCDA). While the City does not receive ESG funding, it supports the efforts of the Continuum of Care and encourages organizations to submit applications for ESG funding requests to Lake County and the State.

These providers offer significant resources, services, and housing opportunities for the City's sheltered and unsheltered chronic homeless people. On January 25, 2023 the Continuum of Care completed a Point-In-Time survey of the homeless population in Lake County, Indiana. The 2023 Point-In-Time Count information for Lake County is listed below:

Overall Numbers:

- 161 persons identified themselves as homeless. This is a decrease from 212 persons counted in 2022.
- 53 persons identified themselves as under the age of 18. This is a decrease from 63 persons counted in 2022.
- 3 persons identified themselves as unaccompanied youth. This is a decrease from 19 persons counted in 2022.

Chronic Homelessness:

- 19 persons identified themselves as chronically homeless. This is a decrease from 36 persons counted in 2022.

Special Needs Populations:

- 20 persons identified themselves as having serious mental illness. This is a decrease from 52 persons counted in 2022.
- 4 persons identified themselves as having a substance abuse disorder. This is a decrease from 20 persons counted in 2022.

During the CAPER period, the City's primary goal to end chronic homelessness was to ensure that chronic homeless individuals moved out of homelessness and into decent, safe, sanitary, and affordable housing with appropriate and adequate supportive services. The strategies to achieve this goal consisted of

DRAFT

offering flexible services and housing opportunities with interventions to address both structural and personal reasons for chronic homelessness. Activities sponsored by the City to end homelessness included:

- Involvement in the planning process through the Continuum of Care Network collaborative.
- Supported the development of 6 to 12 supportive housing units in the CoC area.
- Supported the on-going maintenance of the existing permanent supportive housing in the CoC.
- Supported social service providers and agencies in assisting chronically homeless people by enrolling them in appropriate public benefit programs.
- Supported advocacy, legal representation, and outreach to secure resources for the chronically homeless to become independent.
- Implemented a county-wide HMIS to collect data about chronic homeless people and identify housing and services needed. The collected data also provided direction to the City in allocating its local resources to better address the homeless needs.

DRAFT

Addressing the emergency shelter and transitional housing needs of homeless persons

There is a lack of emergency and transitional units within the City and throughout the CoC as a whole. While emergency shelters and transitional housing programs still have a place in the overall continuum, the focus has now shifted to a Housing First model that emphasizes the placement of homeless persons in stabilized housing situations as soon as possible in order to minimize the amount of time in the system. The City continued to coordinate with the CoC and local homeless service providers to determine the most cost-effective way to use limited resources to address the needs of homeless households at their time of crisis. Potential strategies included support for a rehousing program for City residents, creation of a new shelter, and increasing prevention efforts to alleviate the need for emergency shelters.

Under the FY 2023 CDBG Program, the City funded the following agencies and programs which aim to prevent homelessness:

- **Catholic Charities - Safe Haven Homeless Prevention Program -** Catholic Charities will provide financial assistance of up to three months of past due rent/mortgage assistance to individuals/families in danger of eviction/foreclosure with direct payment to landlords and/or mortgage company.
- **Meals on Wheels of NWI - Meals Delivery Program -** Funds were provided to Meals on Wheels of NWI to provide nutritious meals and wellness checks to low- and moderate-income seniors and adults with disabilities.
- **We Care from the Heart - Senior Services Program -** Funds were provided to We Care from the Heart Senior Care Team, to provide senior participants with an individualized plan of care to meet

their specific needs and goals for aging in place.

During this CAPER period, the City continued to supported agencies and programs which aimed to prevent homelessness. The Indiana Legal Services continued to provide assistance to individuals for child support, foreclosure assistance, and other legal needs to maintain family structure and well-being.

The Indiana Balance of State Continuum of Care - Region 1a provides programs for low income individuals and families to avoid becoming homeless, especially those individuals who are being discharged from publicly funded institutions and systems of care. The City of East Chicago is a participant in the Indiana Balance of State CoC. As a part of the City's Five Year Consolidated Plan, there is a "Discharge and Coordination Policy."

The City of East Chicago supports the housing, social service, health care, employment, education, and youth services for its special needs population through funding for public services and through the Indiana Balance of State Continuum of Care.

The Regional Mental Health Center, which has a location in East Chicago, manages six (6) transitional housing units in the City of East Chicago. They offer services for adults and children that consists of the following: Feelings of panic or depression, problems with drugs or alcohol, anxiety and stress, marital and family conflict, unemployment or job dissatisfaction, loss of a loved one and provide counselors who specialize in people who are severely depressed, anxious or are in danger of harming themselves or others. All of the other emergency shelter and transitional housing units are located in the adjacent communities of Hammond and Gary, Indiana.

DRAFT

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

As an active participant in the CoC, the City plays a role in helping homeless persons of all types (veterans, chronically homeless, families with children, persons discharged from institutions, etc.) make the transition to permanent housing and independent living. The City continued to coordinate with the CoC and local homeless service providers to determine the most cost-effective way to use limited resources to address the needs of homeless households at their time of crisis. Potential strategies included support for a rehousing program for City residents, creation of a new shelter, and increasing prevention efforts to alleviate the need for emergency shelters.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

The City continued to partner with the CoC and local homeless service providers to determine the most cost-effective way to use limited resources to address the needs of homeless households at their time of crisis. Potential strategies included support for a rehousing program for City residents and increasing prevention efforts to alleviate the need for emergency shelters.

In addition to direct funding, the City continued to coordinate with the CoC and publicly funded institutions to ensure that all discharge policies are being fully implemented to avoid discharge of a person under the care of a publicly funded institution into homelessness.

The City of East Chicago continues to work to develop effective policies to prevent discharge from institutions and health care and foster care facilities that result in homelessness. To this end, the CoC is in the process of developing a local network of City, County, State, and community organizations to cooperate on a set of activities which ensure cross training, systems integration, and other efforts to improve the reentry of institutionalized individuals into the community. The primary goal of this effort will be reintegration of sex offenders and mental health released patients, and foster care individuals from the criminal justice and mental health systems back into the community. Another goal will be to prevent episodes of homelessness and repeated incarceration.

Potential partners at this point are the Department of Redevelopment, City of East Chicago Police Department, Regional Mental Health Center, Workforce Development, East Chicago Housing Authority, CoC NWI, Inc., and other service providers that can offer a full spectrum of services including case management, substance abuse treatment, mental health services, intensive employment and training support, health care and other needed services.

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

In May 2014, the City of East Chicago prepared an Analysis of Impediments as part of developing its Five Year Consolidated Plan for FY 2014-2018. The AI identified strategies to affirmatively further fair housing in the City. Impediment Five (5) refers to the need to address public policies and regulations.

Impediment 5: Need to Address Public Policies and Regulations.

The City's Zoning Ordinance appears to be outdated and needs to be revised. The City should review and revise sections of its zoning ordinance to bring it into compliance with the Fair Housing Act. Other municipal policies and ordinances need to be reviewed and revised if necessary, in order to affirmatively further fair housing.

Goal: The City's Zoning Ordinance, Sub-division Ordinance, Housing Standards and other policies and ordinances will promote affordable housing and affirmatively further fair housing in order to meet the needs of all residents living in the City of East Chicago.

The strategies to meet this goal include:

- **5-A:** The City will review its Zoning Ordinance to become compliant with the Fair Housing Act by updating the definition of the word "Family" to permit six (6) or less disabled persons to live together and be considered as a single family unit. Other definitions should also be added to the Zoning Ordinance, such as: "Accessibility", "Americans with Disability Act (ADA)", "Community Living Arrangement", "Disability" (Disabled or Handicapped Person), "Fair Housing Act", "Group Home", "Handicap", "Section 504 Rehabilitation Act", and "Visitability".
- **5-B:** The City will review and consider expanding locations where group homes are permitted. Presently, group homes are only permitted in the "R-3" and "R-4" Multiple-Dwelling Districts. These are areas that appear to be impacted, with the highest percentage of minority concentration and over 60% low- and moderate-income households. If the definition of "family" was revised, disabled persons could live together in an "R-1" Single-family District. Group homes need to be located throughout Lake County and this need should be brought to the attention of the Lake County Planning Commission to address on a countywide basis.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

The City's largest obstacle to meeting underserved needs is the lack of funding available to address the City's priority needs. As such, the City continued to seek to work with other stakeholders in the area to attract additional funding into the City to address its goals. Potential funding sources included but are not

limited to tax credits, Opportunity Zone investments, RDA funds, and federal home loan bank funds.

Under the FY 2023 CDBG Program, the City of East Chicago received a CDBG grant in the amount of $1,276,665.00 and program income in the amount of $142,245.27 for a total of $1,418,910.27. The City spent all of its CDBG expenditures on projects/activities that principally benefited low- and moderate-income persons, for a low/mod benefit percentage of 100%.

The City of East Chicago, under its FY 2023 CDBG Program, addressed the needs of its elderly population by providing funds for:

DRAFT

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

The 2018-2022 American Community Survey estimates that 27.0% of the City of East Chicago's residents live in poverty, while only 11.4% of Lake County residents live in poverty and 8.5% of the State of Indiana's residents live in poverty. While only 24.4% of East Chicago families fall below the poverty level, female-headed City households with children are particularly affected by poverty at an estimated 41.9%; the number rises to 57.3% of such households when the children are under 5 years of age. The City's goal is to reduce the extent of poverty by 5%, based on actions the City can control and by working with other agencies/organizations.

The best anti-poverty strategy is to assist households in the ability to hold living wage jobs. As such, the focus of anti-poverty programs was to ensure working age members of a household are employable through job training and have access to employment opportunities through supportive services such as childcare and transportation. Programs designed to serve and support youth in their career development is also a critical strategy that will help break the cycle of generational poverty.

The City continued to redevelop the Harbor Area and pursue the economic revitalization. This will, in turn, create more economic opportunities and job prospects for City residents. In addition, the City continued to use public service funding to provide the expansion and improvement of public services primarily benefitting low- and moderate-income persons, which includes poverty-level families. These programs

provided supportive services to families as they seek to gain self-sufficiency.

CR-40 - Monitoring 91.220 and 91.230

Description of the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

The Department of Redevelopment had the lead responsibility for monitoring the CDBG and HOME programs. The policies and procedures outlined in the manual mandate compliance and timely implementation of the projects by all sub-recipients.

The monitoring procedures were primarily driven by two (2) major activities, which include:

- Detailed evaluation of all proposals for compliance with strategies set forth in the Annual Action Plan.
- Execution of a grant agreement which clearly delineates program objectives, and activities to be carried out by the sub-recipient, time schedule for completion, expected performance goals and reporting requirements.

The Department of Redevelopment used the monitoring standards and procedures set forth in 2 CFR Part 200. The Department's monitoring activities ranged from screening applicants for income eligibility, screening the accounting practices of the sub-recipients, to on-site inspection of properties under rehabilitation. The City also monitored expenditures for different projects to assure eligibility, timely disbursement, and the achievement of goals. Desk reviews were completed every time an invoice was submitted to the Department of Redevelopment. In addition, agencies were monitored at least once during the course of the project. Based on a risk analysis of each sub-recipient, the City monitored more frequently as needed.

When monitoring, the Department of Redevelopment used the standards and procedures set forth in HUD's monitoring handbooks, guidelines, and technical assistance publications. The Department's monitoring activities included: screening applicants for income eligibility; examining the accounting procedures of the sub-recipients; and on-site inspection of properties under rehabilitation. The City also monitored expenditures for different projects to ensure eligibility and timely disbursement.

Another objective of the monitoring procedure was to achieve the goals identified in the Five Year Consolidated Plan. The City achieved this objective through annual reviews of all programs funded in the previous year and a detailed analysis of each sub-recipient's performance. In these efforts, the City required performance reports from all sub-recipients. The City reviewed these reports on a regular basis and provided technical assistance where needed to ensure compliance.

Through regular monitoring actions, the Department of Redevelopment provided information to all sub-recipients about the requirements and expectations of each sub-recipient under the program. The Department of Redevelopment required regular performance updates for each activity to ensure that the activities remain on schedule and that change orders were appropriately issued as unforeseen additional
